

# Invitation Cards

Create the following invitations for the following events in Publisher:

1. Your birthday is coming up. Your parents tell you that you can invite up to ten friends to come to your house for your birthday party. Create an invitation card to send them. Tell them what kinds of things you are going to do for your birthday. Tell them when and where the party will be and what to bring.

2. At the beginning of the year you volunteered to help plan the end of the year party at East Minico. One of the responsibilities you choose to do was to invite your favorite band to play at the dance. Send them an invitation card telling them about our school, when the dance is, and asking them if they would come and play for us.

3. Your parents tell you that they are planning on going on a vacation but your other siblings cannot go since they have not been doing their chores. Your parents tell you that you may invite ONE friend to go in your sibling's place. Create an invitation card for your friend inviting them to come on the vacation. Tell them where you are going and some of the things you your going to do on this vacation and see if they want to come.

Each card should:

- Have the person's name on it
- Your name on it
- Clipart to fill in the empty spots
- Have NO spelling errors
- Fonts and sizes that are reasonably easy to read
- Folded neatly

Put this in your portfolio!

Print a black and white one to check, and then if it is nice, print a color one to turn in.
