

# My Family and I

Your parents tell your family that they are moving to Timbuktu, a town in the country of Mali, which is in Africa. When you arrive, you find that the teacher and class speak English fairly well!

Your new Social Studies teacher, Mr. Sidibe, asks you to create a Canva Presentation about your family, as well as about you, so they will know more about you.

He asks you to include the following things to keep things interesting:

- Your family members and interesting things about each one of them
- Who you are and lots of facts about you
- Favorite foods and least favorite foods
- Your pets
- Favorite movies and actors
- Favorite music and musicians
- Favorite books
- Favorite websites
- Favorite place you have been
- Who your friends were back in America
- Sports you like to play
- Hobbies you participate in
- Things you miss from America now that you are in Timbuktu
- Anything else you want to tell the students about yourself

It should contain nice fonts, eye catching graphics, animations, and anything else that would make your presentation stand out.

Remember, do not use loud colors or other things that make it hard for the audience to read the information you are trying to present to them.

You will be graded on the quality of your project as well as how unique it is compared to everyone else's projects. Be unique!

**Put this in your portfolio!**
