Outdoor Activities

Idaho residents are well known for enjoying the outdoors. They enjoy recreational activities such as hiking, camping, riding ATV's, and horseback riding in the summer. In the winter, sports such as skiing, snowboarding, and snowmobiling are very popular activities. Across the nation, we have seen an increase in the participation rate in outdoor activities. The following chart gives a **small sample** of the things people participate in nationwide.

Recreational Activities			
	2006	2011	Increase
Backpacking	3.6%	3.7%	Formula
Fishing	14.4%	2.6%	Formula
Hunting	6.3%	6.2%	Formula
Kayaking	1.9%	4.8%	Formula
Scuba Diving	2.2%	0.9%	Formula

One of the sports that quite a few Idaho residents participate in, can also take place throughout the year is hunting. Idaho is well regarded as a prime hunting state in the nation.

Hunting

Hunting is an activity that is often times passed down from *father to son*. While in the past very few women participated in the sport, today, many more *women and girls* are getting involved in the sport. According to an article from "National Hunting and Fishing Day," the number of female hunters has increased by 163,000!

Summer. In the summer, coyote and rock chuck hunting is a popular activity in Southern Idaho. These creatures are considered a nuisance in this part of the state and a general hunting license allows a person to bag as many as their ammunition supply allows.

Fall. Most people who participate in hunting eagerly wait for the fall hunting season to begin. Deer, elk, goose, and duck hunting are some of the most popular animals that hunters are after. Deer hunters in Idaho can **stalk** their quarry with either their archery equipment, or with a rifle. The following chart shows us how many deer were harvested in 2012.

2012 Idaho Deer Statistics				
	Hunters	Harvested	Bucks	Does
Archery	17,352	2,570	30,549	10,542
Muzzleloader	2,632	760	388	370
Any Weapon	116,240	37,841	28,697	9,082
All weapons	Formula	Formula	Formula	Formula

Please write a very short paragraph about the outdoor recreational activities you like to participate in, or, what your opinion on hunting is. Please make sure it is long enough to cover the subject, but not so long that the reference information goes onto another page.

<http://parksandrecreation.idaho.gov> and <http://fishandgame.idaho.gov>

Document: Calibri 12. Pay attention to headers\footers\side headings\etc. Justify the paragraphs.

Spreadsheet: Put each spreadsheet in a separate sheet. All the information is Calibri size 12 except the headings, they are Calibri 14 and bold. In the Recreation spreadsheet, make the columns the following width: A=14, B, C & D=10. In the Hunting spreadsheet, make the columns the following width: A=15, B=10, C=13, D & E=9. Use appropriate shading. Bold any information that looks bold. You may color the words\numbers if you think it would make it look nice. If you think colored words\numbers look better than shading cells in, that is fine with me as well.

Pictures: Please find an appropriate internet picture to replace the ones I used. Make them approximately the same height as the spreadsheet if possible.

Watermark and Border: Place an appropriate watermark on the project. Use a page border that would look good, but it has to be thin enough that it does not cover up the header and footer.
